Dental Distortions FX Fangs are ultra-realistic special effects dental appliances used by the film industry, but also affordable and easy enough to be used by the Halloween Industry. FX Fangs have been used in many popular movies such as Resident Evil: Apocalypse; Dance of the Dead; Werewolf: The Devil's Hound Dog; Primal; and The Take. FX Fangs are crafted in the USA using superior materials and an improved process, thus creating a higher quality and more durable product. Each appliance is held in place with non-toxic thermoplastic which allows for easy custom fitting and re-fitting. Once the FX Fangs are fitted properly, they can be worn comfortably for many hours.

If you are a store that carries fangs, caps, and other novelty costume teeth products, offer your customers the superior option of Dental Distortion FX Fangs and Creepy Claws.

Comes complete with prosthetic teeth and fitting beads in a soft velveteen pouch or a durable plastic case.

**Creepy Claws: Best fake claws on the market!**

Creepy Claws are film-quality prosthetic costume claws designed by one of the leading sculptors in the film industry exclusively for Dental Distortions. Each set is hand painted for ultra-high realism.

These semi-rigid claws fit over your fingernails just like regular acrylic nails. They are held in place with double sided nail tape that custom fits to your nails in a few short minutes.
