3-D Butterfly Stickers

A thousand and one uses! Dress up your table setting, party, event, or even your workspace. Think outside the box and use it for costumes, free giveaways with butterfly face paint, or your next photo shoot!

These 3-D stickers are replicas of real-life butterflies from around the world. To use, simply fold the wings along the creases on each side of the butterfly's body then peel off the card and apply. The adhesive is only on the body of the butterfly. Made of a transparent material so the wings look real.
